

# Packages of support for English, maths and ESOL/Functional Skills

- Do you need advice and support on the delivery of functional skills within your vocational programmes and apprenticeship frameworks?
- Are you maximising your guided learning hours by adopting flexible and/or blended learning models of apprenticeship delivery?
- Are your teachers and assessors equipped to support functional skills?
- Are you new to English, maths and ESOL provision and so need help to ensure you are offering high quality programmes?
- Do you need to develop whole organisation approaches to delivering English, maths and ESOL provision?

From September, we will be offering 6 and 3 day of packages of support to help organisations:

**Implement functional skills**

**Improve the quality of their English, maths or ESOL provision**

Led by LSIS improvement partners and (if appropriate) LSIS Associates with proven expertise in delivering high quality English, maths and ESOL provision, support will be customised to organisational priorities. Staff at different levels within the organisation will have the opportunity to engage with the programme.

Packages will include consultancy, in-house continuing professional development (CPD) and opportunities to regional peer working groups.

## Packages available

Package	What is included?
6 days	Typically 3 days' consultancy, 3 half days' CPD and attendance at a peer working group, but customised to meet the needs of the provider.
3 days	Typically 1 day's consultancy, 2 x half days' CPD, attendance at 1 peer working group, but customised to the needs of the provider.

There may be opportunities in your region to access support through a network of providers, rather than on an individual basis. This model of support would require you to make an agreed contribution through your LSIS account or through a cash payment. Contact your LSIS Associate for more information:

Region	Associate	Telephone	e-mail
